Hi, how was your weekend?

Hey, how's your week going so far?

Hi. What have you been up to lately?

Hey, how are things with you today?

Hi, any fun plans for the weekend?

Hi, I hope your week is going well.

Hi, how are you? ??

Hi there. How's life treating you today?

Hey, what are you up to today?

Just stopping by to say hello. Hello!

I just had to say hi to you. Hi!

What's up? How are you?

How's your day going so far?

I hope you're having a nice day ??

Hi there, how are you?

Just wanted to say hi!

Hey there! ??

Hi, I hope you're having a great day.

Saw your profile and just had to say hi.

Hey, what are you up to right now?

Flirty/Funny Hellos:

I can't think of anything better than getting a reply from you.

I want this message to be the reason you smile at your screen.

Do you ever feel like something really great is about to happen? I kind of feel that way now.

If you respond to one message today, let it be mine.

I kind of, sort of, well, pretty much think you seem amazing. Want to chat sometime?

If you wanted to talk, it'd definitely make my day... or maybe year.

Hello. Also, you are amazing.

Could you please reply to this message and make me feel like the luckiest person in the world?

You have no idea how happy it would make me to talk to you.

You had me at It's a Match.

I tend to wear my heart on my profile. ??

Hello, bonjour, aloha, salut! (I wasn't sure how to say hi, so I tried a bunch.)

Rawr means hello in dinosaur. RAWR!

That awkward moment when you try to message a guy/girl and all you can think of is hello.

Just saying hi. Because I'm annoying like that.

I'm willing to risk the cooties if you are.

I like how your nose is in the middle of your face. That's really cute.

I like hugs.

I will always tell you when you have something in your teeth. That's just the kind of person I am.

I'd love to talk to you. For reals. No fakesies.

I think I quite fancy you.

You seem super duper.

Double thumbs up to you.

Anyone can be cool but awesomeness like yours takes practice.

You (yes, you) are the person I want to talk to.

I don't flirt, but I will totally seduce you with my awkwardness.

I'm looking for someone I can be a complete nerd with. You interested?

I like it when a guy/girl talks nerdy to me.

I'm the good kind of weird. How about you?

You deserve a whole sheet of gold stars.

The truth? I like you a lot. And I don't even know you yet. I just have an idea.

I passed by your photo too many times not to stop and say hi.

My atoms are attracted to your atoms. It's chemistry.

Hello amazingness.

You make me smile. That is all.

You had me at online now.

I want to be the reason you look into your phone and smile.

I was more excited to see your profile photo than pizza. And I really like pizza.

I bet my dog would like you.

I bet my cat would like you.

Do you seek for a particular age before coming into online Dating? How

old are you?

I'm 50 years old. I do not seek for a particular age, because I feel age is numbers, you do not know where love can hit you up from. It can be someone younger than you or perhaps older than you.

How many relationships have you been into before you came into online dating?

I had three (3) deep relationships in my life; The first I had was when I was still a teenager with a girl named Amber, we were both attending the same school in London, she was from Milan, then we used to see each other everyday, helping one other with our assignment, unfortunately after our final exam at high school, she told me that her parents will be leaving London back to Milan and she was going with them also, I felt like wooh!!!, that means that you are going to leave me, she said she does not know what to do, so they left I was really unhappy during that period.

The second was with my late wife and was my longest relationship, we were married for 17 years, I met her at my home town, Queens, New York. After her death I stayed a year and 5 months alone were I had a very special lady Named Ana; she was from Wyoming, I thought I was going to get married to her. We stayed 3 months together and I later found at that she was lying and has been cheating on me, so I had to brake up with her and it hurts so much and so bad. Since then I have been single and I decided to come into online dating and find my soul mate.

Do you know what went wrong in your past relationship?

Cheating and lies made my last relationship ended. I am a very comprehensive person. When there is something wrong with my relationship, I don't fight, and be hysterical, I like to talk. A better conversation is always the best solution for everything, but of course with every experience you learn more how to deal, and always there is something new for you to discover.

What attracts you to a man?

Truthfulness and respect. I'm not after physical apperance, but I value good characters, It really makes me get closers to a person inside; I do considers that more important because beauty fades with time but the person inside appreciates with time.

I go for the inner beauty, it radiates and it speaks for itself over time and for a woman like you who is family oriented is an added advantage to me.

What are your likes and dislikes?

I like real things; I like honesty, truthful, caring and obedient person. I dislike dramas, cheating, lies, disrespect, racist & Betrayal. I would change how I tend to dwell on the past, because it's really dragging me down lately. Our experiences in life made us who we are.

No one is free from difficult times in life or what some may call baggage. How you've dealt with those experiences will determine if you're damaged or resilient. I'm a prime example of resilient and not looking to do damage control. I understand everyone has old baggage, but I want someone who has put the old baggage up for old memories and is ready to create new memories. Life is short and you never know about tomorrow, so if you want to live life "like there is no tomorrow."

Who is your mentor?

My mentor is my late dad, he was a nice, caring and understanding dad, who loves and take good care of his family, he always speaks the truth and he is a self discipline man, my dad is ready to risk everything he has for his loved ones, but I do feel the pain because he never lived to enjoy me, he was really the best dad in the world. #### Step 5

Hello dear , thanks for the message i really enjoy reading from you and i will like to tell you more about myself I am the only child of my late parents Professor and Dr. Mrs of the blessed memory. I want to spend the rest of my life with someone who is friendly, honest, caring, and trustworthy and God fearing,. I find very much peace and tranquility here.

I'm athletic build, mentally stable, physically fit, a bunch of laughs, warm, caring, honest, a good listener, God Fearing, and a positive person. I am a family oriented person, love children and there is more, but it would be better for you to find some things out for yourself.

It is very important for me to build a life of stability, security, and opportunity for the special person I hope to share my thoughts, feelings, experiences, dreams and fantasies with, and to offer the best opportunities for any kid that might be included in my life, both mine and

that special person children, and that is my focus at this time and I also do enjoy my job though risky because we are always on the high battle field.

I am really interested in wanting to know about what makes you the special person you are today, I want to know more about your family, your background, your life experiences, past relationships, your goals and dreams, your interests, and anything else you want to tell me. I even want to learn about the secrets you very rarely share with someone!. So come on and share it all with me, as I am not here to talk to you about general things such as partying, the weather, sports, e.t.c. I want to learn about you and what makes up your heart and soul, as the friendship I want to build with you I want it to be like no other you have ever shared in or experienced. This friendship I want to build with you will be filled with substance, quality, spirituality, love, faithfulness and potential. Hope I didn't write much of a novel

Hope to hear from you soon. Until then have a pleasant day.

Step 6(distance)

Hello dear, How has your day been? Nice to hear from you. I like to say much thanks for your message and for telling me more about yourself. I have really not been active on Instagram/facebook because of the nature of my job. It is my pleasure to let you know that I have taken you as my special friend, I hope we can be a very good friend.

I hope we can be in constant communication so we can get to know more about ourselves. What's your plan for the future dear? All I want now is someone who I can love and give my heart to, honest, faithful and responsible. A woman who can communicate what she desires and has the ability to listen. Someone who is positive and believes that everyday holds something amazing. I want to share my life with someone, and it won't be as a playmate. I am a very passionate man, and I need a passionate woman to be my partner. I have got to know the value of a woman in a man's life. And also to let you know that the distance and language can never be a problem because all that matters is understanding, trust and passion as I am ready to travel miles just to spend the rest of my life time with the woman I love. Hope you find this mail understanding.

I want to say that my heart is full of joy and happiness for knowing you and I will like us to keep this closeness and hope this will bring us to a better future as I wish. We seriously need people's prayer for God's protections here in Afghanistan. Hope to hear from you soon. Do have a nice day.

Step 7(4allin more in luv)

Dear, I think about you every second of every day. When I fall asleep, my dreams are about you. When I wake up, I look at the empty pillow next to me and wish you were there looking into my eyes. I wish I could tell you how I really feel.

Dear I want a long term relationship and one that will last forever but now we have to take it slow and get to know more about each other better.

I wish I could tell you but I don't want to scare you away from me, and I would rather write you and not be with you then to never see you , because writing you every day is a gift from God that I was blessed with. I guess I will never know how you feel unless I confess my love to you. Who knows - you might feel the same about me. I really think I am falling in love with you . I just don't know how to tell you.

i know that this might be too forward or fast but i just thought you knew what i felt and i am sorry if this is not what you wanted.I pray and hope that you understand my message ....

your smile entices me,your words keep me warmth when i am lonely and i would like to spend the rest of my life with you

i need someone who will love me for whom i am not for what i am.

ANOTHER PHASE( another conviction of distance)

=====

I wish you were here to see how excited i am to received your message, i really felt so good. You are such a nice beautiful woman whom i would like to get to know .. Well, i am just a very caring man and i do really like kids alot because they are God gift from the heaven so parents are to do anything to make them happy and be a very good child,i hope you won't bother about the distance between us, distance does not matter in a relationship, what really matter most is the HEART and FEELINGS and distance is only there for us to get toknow each other much better before getting to meet each other in person then see how things develop. Well, i really would like to get to know you more and sometimes chat with you then see how things may work out. By the way, What kind of dates do u prefer??Well as for me i prefer private dates, with my woman and myself alone. I guess i like the private moments when we can share intimate things. Talk about plans, desires, feelings. As I said before, I'm quite physical. I love to hug and touch and be touched. I love to show affection to my woman and i love it when she's very affectionate with me. I love women and i always desire to respect them. When i have been with a woman, i have never taken advantage of them unless they do took advantage of me. Even when they want me to be physical with them, I always want only to honor and respect them.When i find the woman who i feel is my soul mate, i look forward to when we can spend time alone, cuddling on the sofa, watching tv/films. Making out, caressing and kissing. I can't wait to have sex with my future wife. I am a sexual person and i love the thought of

being intimate with her in every way. I want a wife who feels the same way. Who has the same sexual appetite as i do and desires to be as intimate as i do. But all of this must be within the context of a relationship. So i will protect the sanctity of my future marriage. It doesn't matter to me if my future wife has a sexual history. As far as I'm concerned, when we marry we start from fresh. Her past is not of importance to me. Can you tell me more about yourself?????. Well am really looking for a long term and serious relationship, I need a woman that will love me for whom i am, Make me happy again.. Am also gonna show in a lot of caring ways in return, Am new on this dating stuff and i really hope i can make something real with you and leave this internet stuff soon.... I'm honest, faithful, caring, respectful, responsible and witty. I like having fun and laughing. I like most kinds of music, except rap. I also like to sing karaoke for fun. Other interests include drawing, writing poetry, reading, art, museums, concerts, camping, hunting and fishing. I don't watch much TV, but I do like a good happy ending movie now and then, (but not at a walk in theater). I don't mind getting my hands dirty and do a lot of yardwork and remodeling myself. Will even help work on cars. I don't care for sports much, but don't mind if a woman likes them if it doesn't take much time away from us I don't like head games, lying, cheating, abusers or fighting. I don't like being around people who are drug users and those who make a habit of getting drunk. If someone doesn't have the respect to be faithful to the one they are with, than get rid of them first. There are no excuses for cheating!! I believe that just because I think I'm right, doesn't necessarily make the other person wrong.. Being mean and name calling isn't part of my life.. I'd rather turn my back on all that drama than live a miserable life. I am not bitter about any past relationships and do not believe in bringing them into a new one What makes you laugh, smile, and cry???? Crazy funny people. Sarcastic people like Dr Cox on Scrubs. I love his character. I love intelligent comedy like political satire. I love Robin Williams, Jim Carey and Mike Myers. They crack me up so much. I love watching those home video clips of kids doing hilarious funny things. Kids make me laugh. The things they say. You never expect it. What makes me cry, I'm always moved when i see scenes on tv between parent and child when they are struggling or dealing with the relationship. my personality type tends toward being outgoing. People would most often describe me energetic, loving, caring, extremely emotional, bubbly, understanding, very supportive, very caring and warm, very passionate and loving, i dont drink nor smoke, i am not into any kind of drugs as well, i like to hang out and have nice time with my partner, I love to bowl, though I haven't done it in years and shoot pool, play cards, just cruise on a beautiful sunny day, I love the water and one day hope to be blessed to have a home on the water. I love to cook and play video games with my mother and sometimes we swim at the pool in the

evening.....and sometimes we ride on our four wheeler..I am a channel surfer,I like csi any cit discovery,tlc anything that has to do with motorcycles.I also like a few reality shows, american idol so you thing you can dance the news sometimes.anything funny or something that will atleast make me smile. I like to smile, it makes me feel better,I am a CSI, Law and Order Special Victims,Criminal Intent and the 4200. I also love Smallville,I like We Were Soldiers,Indepenance Day,Lord of the Rings, All the Mummys, Resident Evil 1 and While you were sleeping, Jerry Maguire, Jumanji, I guess i could keep going but I think I could go on for a while,I enjoy reading. Some of my favorite musicians songs are Chris Tomlin, Dave Matthews,Robert Kelly and Eminem...i have only been in relationship with Danielle she is dead, i love and she loves me too i really miss her...I am seeking for a long term relationship with Someone special to capture my heart and knows how to handle it with care, one who will cherish me,i am looking for someone to love as well, Capture my heart,Someone kind and affectionate and believe in romance...A real person, who likes themself and is comfortable with who they are, even if not where they are,i am seeking someone who can keep up with me, challenge me and inspire me. And who is intelligent, has ideas, may be creative and has needs and/or expectations to be fulfilled,I am looking for my soulmate to share lifes dreams with, someone who still believes in romance,fun,and is a true gentle woman at heart

do you think we are seeking for the something in a relationship?

i do think that we are seeking for the something well lets see where it will lead us to.....i wanted to get to know you more about you that was the reason i messaged you,i am not a guy that use and dump women no no no i am a very faithful and Godly man,i know how to handle my woman heart and keep it safe in other not to miss it,so i know how to handle my woman just the way people handle Golds and fragile items,i expect what i give out to my woman in return

Dream you had for her(SEX DREAM)

=====

Hi my Queen

how are you doing today and hope you are Good?,i miss you like never before yesterday and hope to hear from you soon,this is my dream for you Sweetie,I have to confess that i have had you in my fantasies when I have played with myself. I can sometimes feel you with me and i don't want to wake up, because it will be over. OK baby, here is my dream from beginning to end. Let me know what you think and how it made you feel, OK? I hope you enjoy it and it makes you feel as wonderful as it does me. read it over and over when you need me close to you or when you are missing me. I love you, honey. Here it goes.....

X X X(copy and paste (C/P) this note well one after the other)

I was so easy. I started touching your neck, then I ran my fingers down your shoulders and your arms. I slid my hands under ur arms to ur chest. your nipples became hard. you could feel my body responding. I began kissing the back of ur neck. You softly moaned, holding my warm hand to by breast as I moved back closer to you. I wanted to feel all of you against my back side. you continued to moan softly, calling me by name. "Please baby, you said, you want me so bad". you turned yourself around to face me. I took your face in my hands and began kissing u softly. The passion grew and our kisses became more intense. You put your hands on my chest, feeling me through my Shirt. you found one nipple.....then the other. you slowly inched me backwards and broke away from my kiss. you wanted to feel all of

me. you slowly pulled my Shirt up, running your fingers over my warm skin going from your stomach to your nipples.....one at a time. You bent over I and kissed them, licked them and started biting them gently. First one .....and then the other. you slowly licked a line down my stomach to the waistband of my pants. You looked up to see my face.. I had the look of love. You slowly remove my pants. You heard me moan!!! "Oh god, baby. you drive me crazy". I lifted my hips to help you slide my pants off. You could see how hard I am through my underwear. you lowered your face to me and let out a hot breath on me, biting me easy, through the cloth. I let out a plea, "Please honey" as I raised myself to meet your lips. You took ur fingernails, and gently rubbed the length of me, ending at your waist . It was time..... you needed to have me. ...You knelt beside the chair and licked the tip of me. I shuddered. You did it again but this time u took dick into your mouth.....mmmmmmmmmmmmmmmmmmmm. u heard me.gasp, "Oh god.....". You tasted so good. u began to move, taking more and more of me. I reached for ur breasts, feeling ur large hard nipples. You could tell that you were on the edge of having an orgasm and I pulled away from u. Stood up, extending my hands to you, helping you up. We walked into the house to the bedroom. Without turning on the lights, I shut the door, turned to you and began kissing you again. I were making your head spin. I moved down to ur neck, then reached down and pulled your dress up over your head. Kissing ur shoulders, I reached around u and released your bra, dropping it to the floor. I kissed and licked my way to ur breasts one at a time, while I were walking u backwards to the bed. The minute I took ur nipples in my mouth, You felt like You were going to fall to the ground. your legs tuned to the door.It felt so good. Oh my god.....You were so wet. I laid you down on the bed, continuing to suck your nipples and my hands were touching ur skin. I worked my way down to ur panties and slid them off. . you began moaning my name"Please Roland, take me. Take me now!!" "No my love, not yet", I said to you. "Its been a long time for us both, I want us to enjoy this". I put my knee between ur legs. u opened ur legs freely. Then I lowered my mouth to u and began to suck your Pussy. I thought you were going to explode. I heard you say "Come on baby, !" as I suck ur pussy, you pushed my finger up in side of you. That was it....."Oh my god!!!! You came so wet. I could feel you climaxing around my finger. "Thats it baby, u said, Now its time" u came close to me on ur knees and rubbed the end of myself up and down against my Cock. I was teasing you again. you kept trying to capture me and push down. you wanted me deep in side of you.I would only let u have a little of me at a time, then I would pull out. It was you that was begging this time. "Please baby, I need you. I have got to have you NOW!!!" I finally gave in myself, I couldn't take it any more either. Slowly ....I

slide

into you. "Oh my god!!!!!! I feel so good!!!" I stopped. You had all of you buried deep in yourself. "Don't move" I said. I was close to cuming. You could feel my wet cock inside of you. You started moving slowly at first, gently, kissing me again. You started moving faster. god I feel so good!!! I started moaning, calling your name ....ahhhhhhhhhh Debra.....I'm going to cum!!!" "Cum for me baby, you said, Fuck me.....Fuck me hard!!!, Oh yes, baby.....there it is.....I'm going to cum!! I began to pound you harder. "Oh god!!! thats it!!", you could hear me say, as I pushed hard and deep into you one last time. We both came at the same time, sending us both over the edge. "Don't move", you asked me. You felt so good fucking you hard. When our breathing slowed down, I picked up your head looked down into your eyes and asked"Are you OK?" "You said" "I am more than OK,lol..lol..lol, baby. I feel wonderful!!!" I kissed you, rolled on your side, pulled u close to myself, wrapped my arm around you, and we drifted off to sleep. We made love several more times during the night, softly waking each other up. Early the next morning, you slipped out of bed, and made breakfast. you brought me breakfast in bed. You kissed me awake. I had a smile on my face and said, "Lets do that again"Baby, you don't know how many times since we meet dreams about us making love, different places, different times of the day, different positions. I hope you enjoyed reading this as much as i enjoyed playing it through my head and writing it down for you. This truly came from my heart with all the feelings that i feel for you. I love you baby and I'm looking forward to the day that we share everything together.....i cant wait to chat with you baby,i miss you and can` t wait to be with you....i love you more.....
